

Quick-Closing Valve for Gaseous Media Self-Operated

Edition: 03.15

NO AIR FOR YOUR ACTUATOR? EVEN IN THIS CASE KÜHME HAS A SOLUTION!

Further to five decades with a proven valve safety design with pneumatic actuator, we developed a self-operated quick shut off valve.

IT ADDS ON TOP OF THE ALREADY PROVEN DESIGN THE FOLLOWING ADVANTAGES:

- Independent from auxiliary medium (instrument air)
- usable anywhere, anytime
- Independent from the process gas pressure (min. 4bar, max. 100 bar)
- ready to use system
- EN 161 Class A requirements maintained for the complete self-operated system.
